HOME SECURITY SYSTEMS
DESIGNED FOR YOUR NEEDS

POTENTIAL SERVICES RESIDENTIAL HOMES

● FIRE PROTECTION

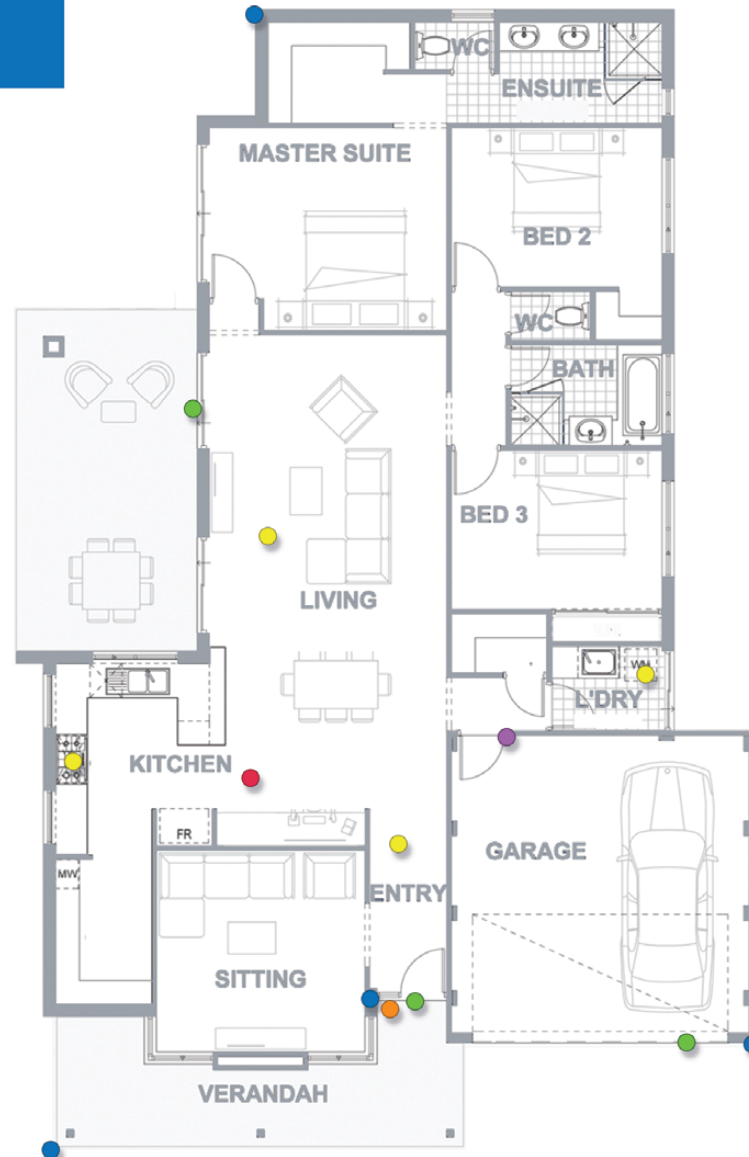

Monitoring an environment is critical especially if the home is vacant during the year. Wired Out offers homeowners the latest smart technology in fire protection alarm systems.

● SECURITY ALARM

Homeowners want to protect their perimeters, their home, and also their family. Wired Out can design a custom home security system solution that includes 24/7 alarm monitoring.

● CAMERAS + VIDEO

Wired Out Cabling & Security can design a custom video surveillance camera system to deter intruders. Live view and playback options available on a phone, tablet, or PC.

*conceptual floor plan for visual purposes

● DOORBELL

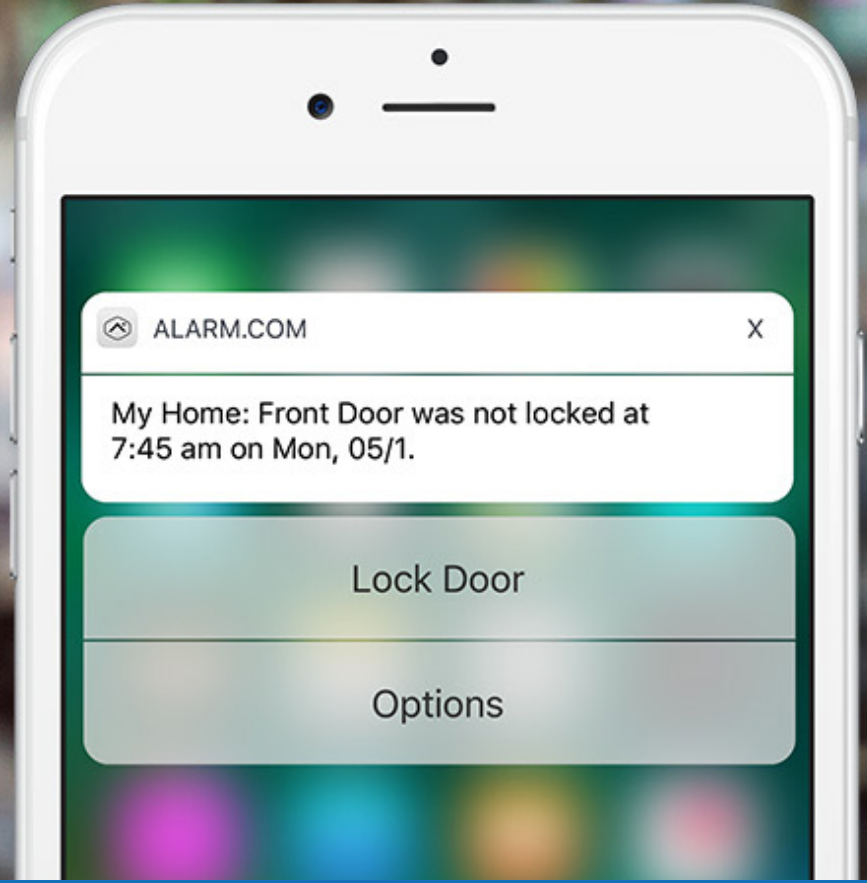

Homeowners looking to get notified when there is motion at their front door? Wired Out can install a doorbell camera alerting owners when a delivery arrives or someone is there.

● SMART HOME TECH

Simplifying the home into one APP. Homeowners can have access on a phone, tablet, or PC controlling lights, thermostat, doors, security system, cameras, and more.

● ACCESS CONTROL

Homeowners can control entry access from their mobile device so that they do not need to be onsite to let someone in. (dog sitter, maintenance, family, etc.)

SMART HOME TECHNOLOGY
CONNECTING SYSTEMS TO SIMPLIFY THE HOME

Wired Out Cabling & Security is a proud partner with Alarm.com, the industry's leading smart home technology and monitoring software to create a powered system that provides homeowners with solutions to monitor and protect their home.

More than just a smart app, Alarm.com seamlessly connects the key systems in a home so they work more intelligently and efficiently.

Designed to fit the homeowners needs:

- Protecting the home with a security system that is monitored 24/7
- Notifications when systems are not set, when an alarm goes off, or motion is detected
- Ability to see what is going on at the property at all times
- Control access to the home's entryways all from one APP
- Change thermostat and turn on/off lights with one click

HOME SECURITY THAT IS SMART

“Feel Home Even When You are Not Home”...
Cameras are the first line of defense when securing a property. The second is a security system that is equipped to have the fastest reaction rate. Wired Out works with the homeowner in designing a custom system that provides them with confidence knowing their home is safe and monitored 24/7 by our state of the art alarm monitoring station.

DEDICATED CONNECTION

Dedicated and secure cellular communication provides safe, reliable uninterrupted protection.

TWO-WAY EMERGENCY VOICE

Communicate directly with our monitoring center operators via the security panel during emergencies.

ALWAYS ON AWARENESS

Owners are alerted instantly, with real-time notifications by text or email the moment something happens.

PROACTIVE SAFETY

Connected carbon monoxide and smoke detectors provide an extra layer of security.

ACCESS CONTROL PERSONALIZED FOR THE OWNER

Enhance security for a home with complete personalized control and visibility over all entry points.

ENTRY DOORS

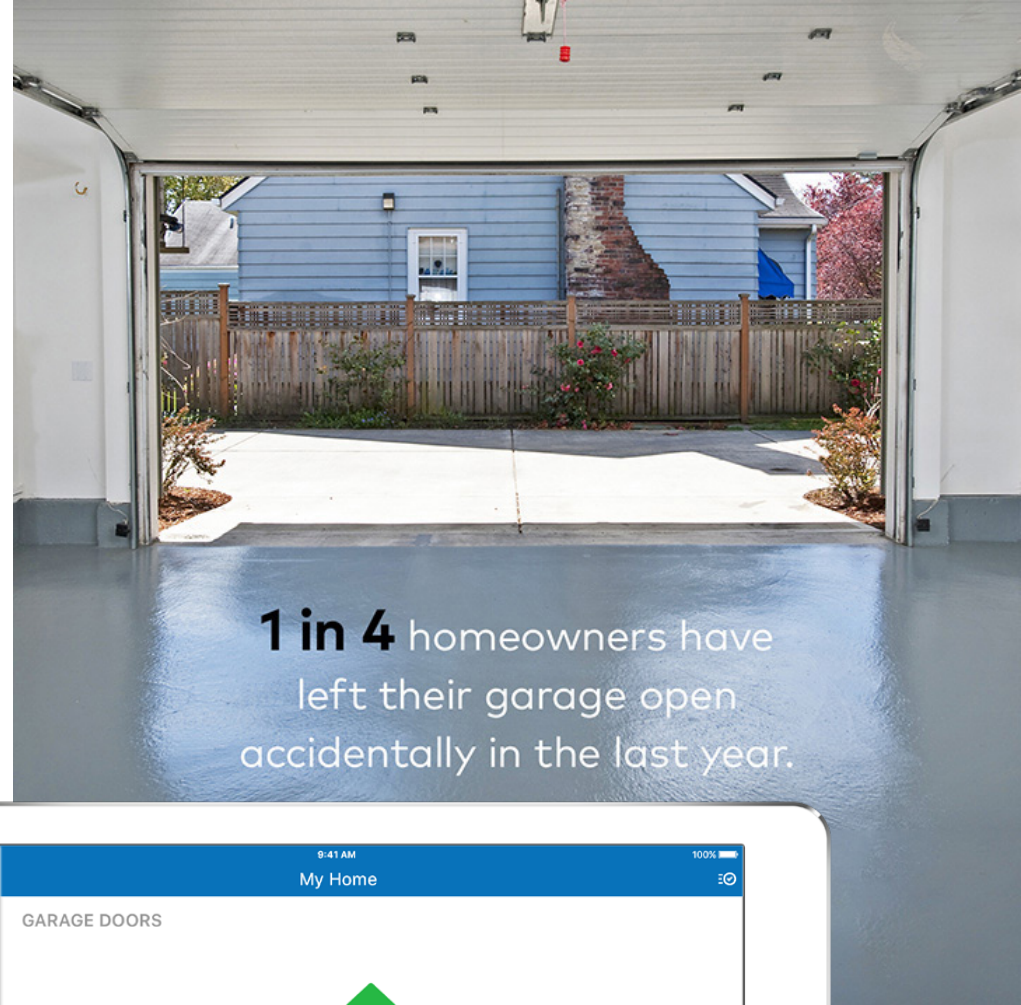

Seamlessly integrate door locks with real-time visibility and control.

- Lock the door automatically with one APP
- Text alert when the door is unlocked
- Assign unique user codes for temporary access

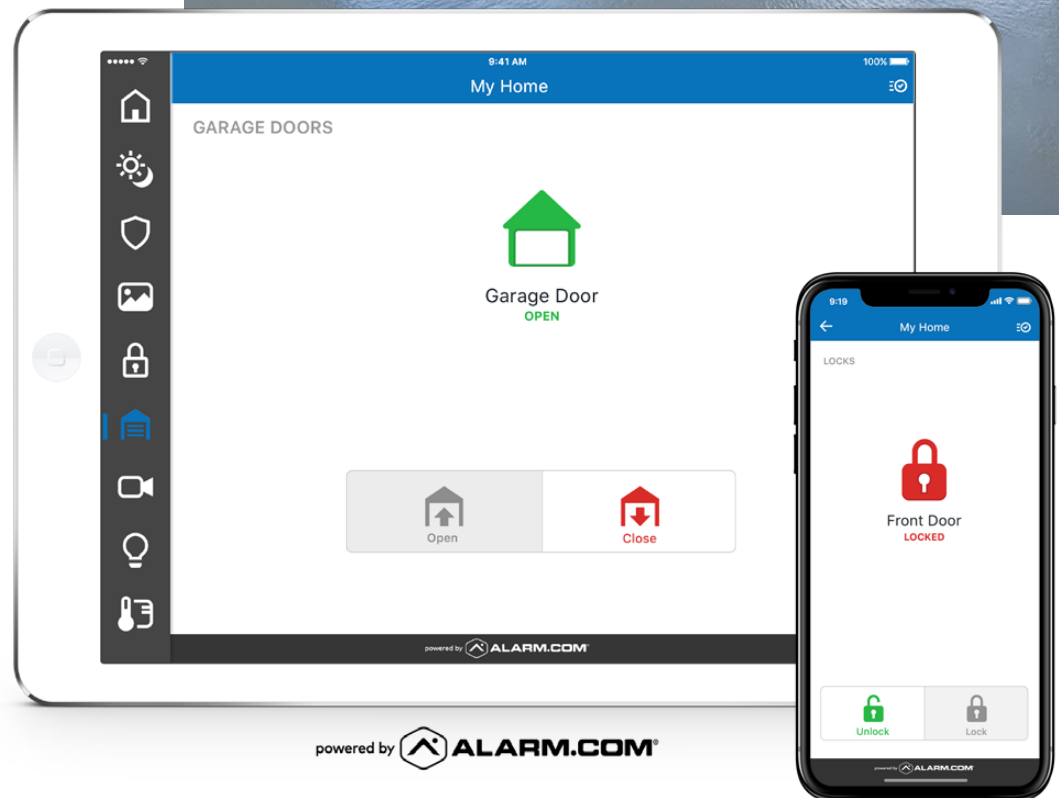

GARAGE DOORS

It is a fact, homeowners often forget to close their garage doors.

- Owners can check on the APP if a door is open with the ability to close it remotely
- Ability to open door to allow access
- Easy rules can be set up to close the garage door automatically when system is armed
- Alerts are sent if doors are open

1 in 4 homeowners have left their garage open accidentally in the last year.

VIDEO MONITORING

ABILITY TO SEE EVERYTHING

LIVE STREAMING VIDEO

Owners have access to a live feed on a phone, tablet or computer.

MOTION DETECTED WITH INSTANT ALERTS

Video clips sent directly to owner when the front door opens, the alarm goes off, or if motion is detected around the property.

COMMUNICATION

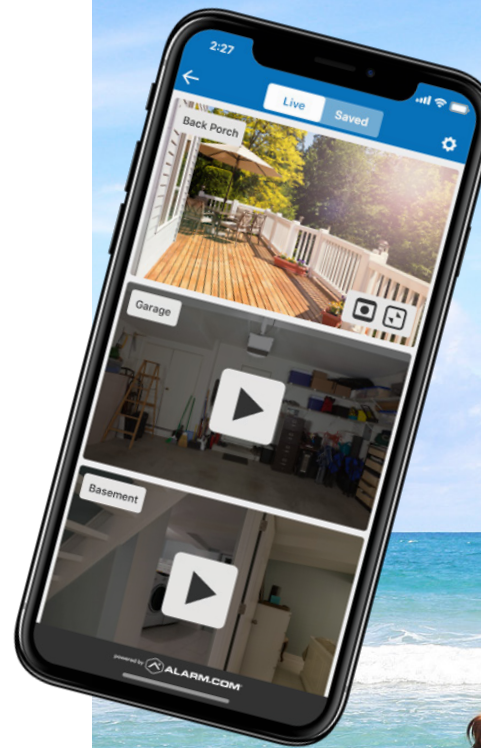

APP allows owner to speak with family, visitors and pets at their home, and hear them respond back through the fixed lens camera or doorbell camera.

CONTINUOUS RECORDING

24/7 HD recording with cloud-based streaming and video clip access from anywhere. Option to record only when motion detected.

DOORBELL CAMERA

This feature is becoming more popular for homeowners, Wired Out can install a Wi-Fi Doorbell Camera. Homeowners have the ability to check their APP to see and speak to anyone at their door - even if they are not home.

CLIMATE CONTROL

ENERGY & ENVIRONMENT MANAGEMENT

A thermostat that is smart using information from other smart devices to automatically help save energy and money without sacrificing comfort.

COMPLETE CONTROL

Control thermostats from a distance with customizable, flexible schedules to create the ideal environment conditions for the home.

PRECISION COMFORT

Using temperature sensors from across the home, can optimize for the right temperature (and humidity levels) in any room, not just where the thermostat happens to be.

RESPONSIVE SAVING

Leveraging data from inside and outside the home, the Alarm.com Smart Thermostat automatically responds to activity, occupancy, and weather patterns.

MEASURABLE RESULTS

Homeowners can receive real insight into energy use and see where consumption is used the most allowing for changes to be made easily.

HOME AUTOMATION

LIGHTS + SOUND CONTROL

Homes can easily be upgraded to have lights and sound integrated on the APP.

FULLY CONNECTED

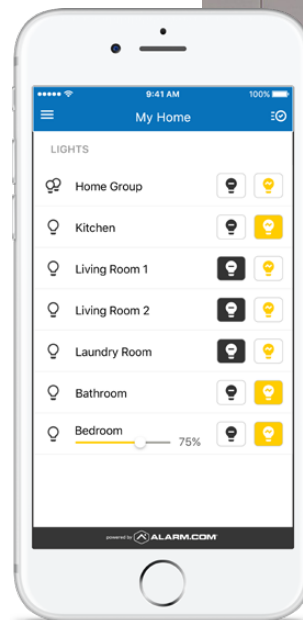

APP powered system assembles the information from connected devices — including lights, locks, thermostats and sensors — enabling them to work together seamlessly.

INTELLIGENT LIGHTING

Remotely turn lights on/off, have them come on automatically when someone walks thru the door, or set a schedule to make it look like someone is home.

SOUND EFFECTS

Set rules to have speakers turn on at a certain time of day or turn music off.

WATER MANAGEMENT IRRIGATION + FLOOD CONTROL

DAMAGE PREVENTION

Minimize expensive water damage caused by burst pipes, leaking faucets, and split hoses with connected water sensors and valves.

SUMP PUMP AWARENESS

Monitor sump pump with an alert if it's not running or if the water level is too high.

IRRIGATION CONTROL

Remotely turn sprinkler systems off if it rains unexpectedly or check on sprinkler status to ensure that a scheduled watering started on time.

IMMEDIATE RESPONSE

Know instantly if a flood event has occurred and take immediate action from the APP.
